

PERMIT PROCESS SUPERVISOR

PURPOSE: Supervise and manage permit processing, review of plans and approval of projects in accordance with applicable codes, rules and ordinances, delivery of customer service, and coordination with other departments involved in construction and land use.

FUNCTIONAL AREAS:

1. Manage the transition to and ongoing operation of the One Stop Shop (OSS).
 - * A. Participate in the development and revision of the mission and organization of the OSS and perform tasks required to support them.
 - * B. Facilitate the implementation of multi-department land use management software and training of users; provide ongoing support as needed.
 - * C. Provide input into the creation and revision of job descriptions for OSS staff.
 - * D. Write and revise procedures manual for staff use.
 - * E. Write customer/user development manual for building safety and OSS components of development processes.
 - * F. Serve as primary liaison between City divisions involved in providing OSS services.
 - * G. Train, or arrange for training of, staff in the OSS.
2. Manage technical work reviewing and analyzing construction plans and specifications.
 - * A. Plan, organize and implement schedules.
 - * B. Examine highly complex construction plans and permits to ensure compliance with all regulatory standards and building codes; approve or reject plans and specifications.
 - * C. Provide technical assistance and advice to property owners, contractors, developers, architects, engineers, City staff and the general public regarding code requirements and permitting and approval procedures.
 - * D. Collaborate with division staff to resolve regulatory and code related interpretation and project compliance issues.
 - * E. Respond and provide resolution to complex/difficult inquiries and concerns from the general public, the business community, City officials, and other departments.
 - * F. Manage plan review approvals and permitting.
 - * G. Maintain current knowledge of issues, trends, developments, regulations and building code requirements governing the construction industry.
3. Supervise assigned staff.
 - * A. Prioritize, assign and direct work and projects.
 - * B. Coordinate work schedules and approve or reject leave requests.
 - * C. Effectively recommend the hire, transfer, assignment, promotion, reward, discipline, suspension, or discharge of assigned personnel.
 - * D. Establish work standards, provide coaching and feedback, and conduct employee performance evaluations.
 - * E. Provide for ongoing training of employees in emerging methods, trends, and technologies, and proper and safe work methods and procedures.
 - * F. Monitor work sites to ensure compliance with established methods, guidelines, standards and procedures.
 - * G. Effectively recommend adjustments or other actions in employee grievances.

- * H. Delegate authority and responsibilities to others as needed.
 - * I. Disseminate instructions and information to employees through verbal and written communications.
4. Assist the City's Minnesota state designated Building Official.
- * A. Assist with communications between City staff and the development community in the administration of the building code.
 - * B. Assist with the evaluation of proposals for modifications of or alternate methods to specific code requirements.
 - * C. Assist with the resolution of problematic situations related to administration of the building code.
